Colonists' Determination To Dare, Endure.

NORFOLK, Va., April 26.—(P)—
Described by President Roosevelt in a message as symbolic of "traits that conquer—the will to dare and the will to endure," a rock-hewn granite shaft this afternoon was dedicated at Cape Henry to the hardy band of cavaliers who landed there 328 years ago.

From George C. Peery, governor of Virginia, who outlined the history of the voyage which brought the first permanent English settlers to America, the occasion evoked a call for the future. "As they conquered and built up the greatest nation on earth." he said, "we, their descendants, should have the strength and courage to keep that nation great and strong."

Lieutenant Governor Joseph J. Hurley, of Massachusetts, found the occasion, the R. Rev. James C. Freeman, bishop of Washington, characterized the monument as a challenge to sacrifice and service. "We are in troubled waters," he said, as he pleaded for a retention of these virtues.

"Maximum Effort" Defined.

School districts are required to have made the maximum financial effort to keep their schools open. Such maximum effort is defined as follows:

a. The school district levied for revenue for the fiscal year 1934-35 the maximum tax rate fixed by law or constitution, or has levied for the revenue for the fiscal year 1934-35 the customary or normal levy for that district as approved by the chief state school officer and or the state board of education.

b. In districts where the local tax rate for schools has been reduced from the customary or the maximum rate, the revenue for the fiscal year 1934-35 may be estimated at the highest rate levied during the past three years and eligibility calculated on the basis of such estimated revenues, where either of the following conditions govern:

1. In school districts which voted the customary or maximum rate, but the rate was reduced by some superior authority.

ATHENS, Ga., April 26.—(37)—A bridge player's chance of drawing 13 cends of one sult is a 150,000,000,000,000.

At least that's what Professor Pope Hill, of the University of Georgia, has lead to the conclusion that chances are about even at tossing heads and tails.

He's the same mathematician, whose hobby of figuring out probabilities led him to flip pennies 100,000 times to come to the conclusion that chances are about even at tossing heads and tails.

For instance, he said his figures to compete 1,000,000,000 through and added:

"The processing tax on cotton represents the most helpful—if not the only—gesture that a federal administration has ever made in the direction of the southern farmer, and when Commissioner Linder and Governor Talmadge join forces with the textile interests in an effort to deprive cotton farmers of the benefits of this tax, at a time when world economic conditions are such that a decent price for the staple, in the absence of government subsidy, is impossible, it is up to the farmers to do a little thinking for themselves.

They may be credulous, but we don't believe they will indorse a plan to cut their own throats."

The 1934 survey also shows that 167 Georgia orchards with a total of 345,000 trees have been abandoned.

The total number of trees affected by phony disease in active orchards amounted to 98,831 trees, the survey showed, with most of them having been pulled up since the date of the records, officials said.

The principal varieties of peaches in the state were found to be as follows: Elberta 46.5 per cent; Hiley 23.5; Early Rose 12.1; Uneeda, 5.0; Georgia Belle 4.3; Carman 1.9; Red Bird 1.2; J. H. Hale 1.0; Mayflower 0.9; all others 3.6.

The man fled as soon as the shot was fired because he was afraid the shot would attract neighbors, Cutcliffe maintained in explaining why the killer had not stopped to pick up the money and jewels Guyol and his wife had dropped to the floor of the automobile when the man approached.

Allegience to Roosevelt Pledged by Group on Visit to Capital.

WASHINGTON, April 26.—(P)—
Hostility with Governor Talmadge for his criticism of President Roosevelt and the "New Deal" developed tonight at a banquet of visiting newspaper editors from southeast Georgia.

Jack Williams, editor and publisher of the Waycross Journal-Herald, told the gathering that Senator Russell, who was present, "now has fewer worries" because of recent developments in his home state.

Though the newspaperman did not use the governor's name, he obviously referred to the effect in Georgia of the Talmadge attack on the national administration and the possible consequences should he oppose Russell for the senate next year.

Russell, addressing the editors, took note of the recent suggestion of Tom Linder, Georgia commissioner of agriculture, and close Talmadge ally, that Georgia might secede, and asserted amid cheers "there is no possibility of Georgia seceding from the Union."

The senator reminded his hearers of a previous attempt of the state to leave the Union, praised the Confederacy, and added "I see no leadership in Georgia—or Louisiana either—that the people could depend on now like they did Robert E. Lee and Stonewall Jackson."

Leaders Reject Christianity; Three Churchmen Jailed by Nazis.

BERLIN. April 26.—(P)—Leaders of the rapidly growing Germanic pagan faith movement boldly rejected Christianity tonight at a nazi-sanctioned rally and said God had "revealed himself to us" through Adolf Hitler.

vealed himself to us" through Adolf Hitler.

Jacob Wilhelm Hauer, spiritual leader of the movement, told an overflow audience at the gigantic sportspalast Christianity is not the true religion of Germans, who united under Adolf Hitler because of their longing for the "Germanic" faith. Dissenters were ejected.

"God has not revealed himself in the so-called chosen people alone," Hauer declared, "but also to us through our Fuehrer (Hitler), to enable us to accomplish our great mission in the world."

# To the Public

The SEABOARD AIR LINE RAILWAY is striving to give the people of the South the best transportation service possible at the lowest cost. To this end it is providing the most improved facilities and adapting its passenger and freight services to the needs of the public.

It is now furnishing completely air-conditioned through passenger service which for safety, speed and comfort is unexcelled in America, at greatly reduced rates.

It is developing its freight service along the same lines, and has recently purchased and put into service ELEVEN HUNDRED of the most modern ALL-STEEL FREIGHT CARS and has just purchased FIVE of the latest type HIGH-SPEED FREIGHT LOCOMOTIVES.

Freight schedules and service are being constantly improved with rates that, in many instances, are lower than they have been for years.

In 1934 the SEABOARD paid about \$18,000,000 in wages; over \$9,000,000 for materials and supplies; \$3,265,000 for new equipment; \$2,100,000 in taxes. Substantially all of this money went to the people, industries and communities along its line.

The future of the SEABOARD is interwoven with the welfare of the South. It is doing, and will do all in its power to develop the South by giving it the best transportation service possible at the lowest cost, and by spending its money whenever possible in the territory it serves. In supporting the SEA-BOARD the people of the South are advancing their own interests.

The SEABOARD asks no favors. It only asks fair treatment and the support of the people in its efforts for the promotion of our mutual interests.

# News Behind the News

By Paul Mallon

MOILING WASHINGTON, April 26 .- Men who moiled for gold in Robert W. Service's Alaska were sissies compared with the boys who are moiling for silver here now. These lads

really get what they go after. As an illustration, the treasury passed around the word as late as 5 p. m. last Wednesday that it was not going to bow to the silver speculators and hike its domestic price again. The word was not official but it was sufficiently authentic to cause the press serv-

ices to write stories to that effect, One financial journal wired its New York office that the treasury would not do anything about silver for at least a week. three hours later (at 8 p. m.) the treasury acted. It

announced the proclamation boosting the price another 6 cents plus.

KEY Considerable mystery surrounds the reason why the treas-ury changed its mind. An official explanation has been handed out off-the-record that it was because one press service carried an erroneous story, which forced the government to act. This excuse does not sound very convincing unless you can stretch your imagination to the point of believing that the treasury policy is at the whim of erroneous news dispatches. As a matter of fact, the obviously inadequate explanation has only heightened speculation as to what the real reason was.

It cannot be blamed on Mr. Morgenthau. He was home munching clams on the half shell or some similar entree containing no silver inspirations. And Senator "Silver Key" Pittman was not with

But if any of you amateur detectives want to go into the matter. good tip for you is that the key to the silver mystery is always Mr. Pittman. As the No. 1 silver moiler, he has quietly become the most influential force in making silver policy. Even the treasury

cannot hold out on him.

If you could find out to whom he talked at the White House between 5 and 8 p. m., and what he said in a loud voice about the failure of the treasury to carry out the silver price-hiking mandate of congress, you might have the answer to it all.

PUMP-PRIMING A hidden fact behind the new relief program is that the pump-priming era is just about over. The Keynes theory of spending our way into prosperity is being, in the main, put aside.

You can see it in the way the public works administration is being squeezed out of a prominent part. The PWA was instituted on the Keynes theory. Administration authorities are now saying privately that the president was never thoroughly sold on the idea but desired to try it out cautiously. He is now supposed to be convinced it is cumbersome, expensive and inefficient.

The exact situation seems to be that the administration is wriggling out of it cautiously, without saying so, in order that it may not arouse the Keynes disciples in congress (La Follette, etc.).

The theme behind the new program is to care primarily for the jobless and incidentally to stimulate material industries.

POLITENESS The trouble with this new generation of college students is they have no gentility. They are always asking impolite questions. For instance, a small group of ungenteel Princeton students was in town recently conferring with government officials and asking questions about government. In a session with an able aid of Attorney-General Cummings, they wanted to know:

'Has there been any personal bias in the government prosecution of A. W. Mellon?'

"Explain why the government maintains 15 investigating units, although the Justice Department is always talking about unifying The students also questioned Emil Hurja, chief Farley aid. He

was asked to "justify the spoils system." Apparently he did a fair job because, afterward, one student observed: "You know, there are two sides to the question."

DOUBTS Justice Department lawyers will not admit it but they are a bit dubious about the Schechter test of the NRA chosen by Mr. Richberg. They have noted the way the supreme court has dodged opportunities to pass on the full recovery act.

In the oil case the court confined itself to a specific section (9 C), although it could have reviewed the whole NRA. It did the same thing in the Spielman case, involving the New York state recovery act, which is a copy of the federal law. A third instance is the Wilshire oil case from California. The Schechter case is somewhat broader than these, but there is an inside fear that the court

The communications commission has privately voted that the entire commission shall act on the hiring of each employe, even in the office boys. Apparently they want to

An NRA section chief called in his workers the other day and told them: "There is no use in trying to do anything between now and June 16, so take it easy, boys." As if they needed to be ordered. Things are so dull at the NRA now that one board member decided to take the opportunity to get married.

An old law forbids the hanging of advertisements in any government building. In the postoffice press room four advertising posters adorn the walls, more or less. The TVA has retained former Assistant Attorney-General John

But perhaps someone who objects to Mrs. Roosevelt's tearing around the urban and rural slums of the country will suggest the name of some predecessor in the office who was a better hand at the job and showed a more humane character or better results.

Two Breaks

Mrs. Roosevelt has made two bad breaks in office—one when she nosed into a cheap congressional contest in New York on behalf of Mrs. Caroline O'Day, a democrat, against Miss Porothy Frooks, a republican. Miss Frooks is a woman lawyer who has been around some years and has learned that sweet are the uses of public and says he's one of the best "jury plead-ers" in the south. Now Peter Lorre, brought to Hollywood with Harry Cohn of Columbia, is bound to make a Hollywood sensation. When he does, Hollywood will say it "discovered" him—a neat bit of propaganda. ### DR. ELLIOTT CALLED BY ATLANTA CHURCH

BY ATLANTA CHURCH
The Druid Hills Presbyterian church
here has extended a call to the Rev.
William Elliott Jr., pastor of the
Fifth Avenue Presbyterian church of
Knoxville. Tenn.
Dr. Elliott will preach here Sunday. He came to Atlanta to look over
the field but has not yet decided
whether to accept the call.
He has served at Knoxville for five
years and is known throughout the
south as a religious and civic leader.
The vacancy in the church pastorate
was caused by the resignation of Dr.
Wade H. Bogs, who was called to a

There was nothing else in the box. "You care to explain this, Mrs. Van Zandt?" Inspector Cox asked in a tone of accusation.

Vera looked at him disdainfully. "I don't know why you assume it needs e planation. The money was a gift to me last Christmas, from a relative of mine—an old aunt, who gives me the same every Christmas. I save it until I see something special was a few moments before Pat replied.

"Not good enough," said Inspector Cox. "How could a woman go aboard a yacht, after the two men were on it, administer poison to her husband, and then hit Barry over the head with a heavy club, or something, and make a getaway?"

"She might manage the husband part," said Stone, "but not the other. Unless Barry stood with his back to her, and she crept down the stairs softly."

"Jimmy Saunders."

I cannot agree with you, Jimmy, or with your dictionary, if you read correctly what it said. The District of Columbia should not be classed as a state of the Union. It is a district set aside as the "seat of government" for the United States. It does not elect a governor, or send senators and representatives to congress. Neither can the people vote for president, unless they vote in states where they may be able to claim residence.

There are 48 (forty-eight) states in the United States. Sometimes there has been mention of a "forty-ninth state;" but that is just an advertising slogan for a trading district around St. Louis, which includes part of southern Illinois as well as part of Missouri. The trading dis-

# Crackers Score Twice on Double Steals, But Lose to Barons

We of The Constitution lost one of our own yesterday and it would be wrong not to set down here someng about Pat Hammond

His heart stopped yesterday as he finished a set of tennis. And with it stopped 25 years of service to a newspaper, a service which was marked by that rare quality, loyalty, and by still another, unselfishness. He could not understand littleness or meanness and so he did not try to understand.

He was managing editor of this newspaper and he was responsible for many improvements which made for more reader interest. He was intensely alive and yet quiet and retiring by nature. He met every obligation. He never shirked. He was a newspaperman of whom we were proud, one who did his job and did it well.

He loved the real things of life. Not once did he seek for applause. He was never found in the forefront at any public gathering. He did not try to become something he was not. He ran true as real silver. In-stead of the drawing rooms or clubs or the small chatter of organized groups he loved the sun and the rain, the trees and the streams; the bird dog at work, the play of a fly on running water with rod in his hand.

All these things he loved, the sound things. And he left gossip and conniving and self-seeking to others. He lived, as best he could, his own life. And he extracted therefrom fun which made his face wholesome and alive; his eyes clear and his mind clean.

### HE WAS A SPORTSMAN.

He was a sportsman. We say that about many people who quit this life and sometimes it is a charity. But of this man it could be said without hesitation or restraint that every inch of him was a gentleman and a sportsman. And it may be the terms are synonymous.

He liked dogs and hunting. But he was never a killer. The open fields and the woods meant more than the killing of game. He never broke the laws of

Dogs and children and grown people liked him in-stinctively. He had that appeal about him.

He was one of the few real amateurs in sport. He played tennis because he liked it. There was never any thought of extracting from the game anything but fun and companionship. He hunted and he took walks and he drove to see the land and not merely to cover

It was curious how little his 49 years showed in his face or in his bearing. He had remained young as the youngest man on his staff. Trouble or burdens failed to embitter him.

Nothing shook his loyalty; nothing stayed him from

He was conscious of flowers and the green of fields, the blueness of sky, the sweep of a mountain's height, and all the real things. He had established a true value of things so that anything false seemed so beside him. Not many people who read The Constitution knew him. Yet there were hundreds who did know him and

He was one of our group. And somehow when he was gone it seemed fitting that there should be set down here something of what we felt for him and of

# PETRELS BEAT IN FIRST GAME

Wade Gives Bulldogs Seven Scattered Hits at Decatur.

By Jack Troy.

Lawrence Wade pitched seven-hit baseball yesterday as Oglethorpe collected 11 hits off the combined offerings of Frank Johnson and Lefty Nichols, Georgia pitchers, to win the opening game of the initial series for the state championship, 9 to 3.

Coach Frank Anderson's plan of switching the series to Decatur proved very fruitful, indeed, some 800 spectators crowding the stands to see the game.

an inning and was accorded some very fine support. With the bases loaded and only one out in the eighth, he pulled out of a bad spot by causing two Bulldog hitters to pop up to the

infield.

The Petrels started uot with the intention of bunting Johnson out of the game and before it was over, they had literally blasted him from the mounts.

they had literally blasted him from the mound.

Johnson retired at the end of the seventh after Oglethorpe had scored all of its nine runs. Lefty Nichols came in to pitch and was greeted with two lusty hits by Wade and Sullivan. Lefty got the side out without a score, however.

The Bulldogs were rather shy on the defensive side yesterday, committing four errors and a couple that don't go in the book.

MEET AGAIN TODAY.

MEET AGAIN TODAY.

The two teams will meet again today on the Decatur High field, starting at 3:30. Lefty Nichols probably will go back to the mound for the Bulldogs, having pitched only one inning yesterday. Ed Copeland, who won a 13-inning game from East Griffin the other day, will be Coach Anderson's choice. The big righthander is right, it appears. Bill Berman will catch for Oglethorpe.

A real feature of the game was the base running of Farmer and Stewart in the sixth. Farmer was on first by virtue of Ennis' error. Stewart came up, laid down a perfect bunt. As he crossed first, Johnson's throw hit him on the shoulder, the ball bouncing into right. Stewart kent on going. Farmer, meanwhile, was running like a scared deer. He scored from first. Stewart went on to third as Hartman finally got the ball back too late.

# Fort Meet Sunday

On Sunday, at Fort McPherson, the first polo game of the season will be played between the Fort team and the Governor's Horse Guard team. Every year the class of polo played by these two teams improves, and Atlantans are indeed fortunate to have the opportunity to see this pop-

have the opportunity to see this popular game.

The Horse Guard lineup remains much the same as at the close of the last season. The players are: Wesley Moran. captain; P. D. Christian. W. S. Williamson, Gerald Graham, Bill Smith, and Earl Thornton. The Fort McPherson team will be: Major R. M. Howell, captain; Captain T. E. Boudinot, Captain A. G. Wing, Lieutenant D. D. Hedekin and Lieutenant S. M. Sanford. Major Gus Tolson and Ray Love will officiate.

The playing field is now in excellent shape, the ponies are in perfect condition, and a very fast game is promised. A nominal admission of 25 cents a person is charged to defray the expenses of the game.

The game starts at 2:30 p. m.

# **Braves Deny Ruth Rumor**

BOSTON,, April 26.—(P)—
The Boston Post in a special dispatch from New York today says Babe Ruth will take over active management of the Boston Braves not later than June 1. The report was denied at the Braves' office here today.

The Post writer says Bill McKechnie, manager, "will be bunted upstairs" into another job.

# **CLEMSON WINS** FROM TECH, 10-2; SWAILS IS STAR

Big Pitcher Hurls and Hits Tigers to Victory Here.

By Jimmy Jones.

Jess Neely, whose talents, everyone around this section thought were restricted to coaching football, brought a first-rate baseball team here from Clemson college yesterday, one which laid it on the Georgia Tech Yellow Jackets, 10-2, out at the old Rose Bowl.

Jackets, 10-2, out at the old Rose Bowl.

The Clemsons touched up three of Bobby Dodd's pitchers for 18 base hits, which along with six errors by Mr. Dodd's fielders and some nifty pitching by lanky Alex Swails just about told the story.

This Swails, who is quite a physical relief from the average college pitcher one sees nowadays, being well above six feet in height and broad of shoulder seemed to be stepping into the faces of the Tech hitters all afternoon as he scattered eight hits very, very widely.

DOES EVERYTHING

DOES EVERYTHING

Swails, who will be remembered as the Clemson basketball center who wrecked Tech on the court back in the winter, weakened a little in the latter innings, but it was not due to over-exertion in the box, but at bat and on the bases. He made three hits and drove in four Clemson runs.

While the South Carolinians were playing airtight ball behind big Sweils. Coach Dodd's Tech defense was jittery from the start, Grossi, the shortstop, having a particularly bad day with three errors and "Sun Dial" Martin. the third baseman who looks a whole lot like Bing Crosby, the crooner, kicking a couple.

Coach Dodd's pitching staff, apparently somewhat jaded from turning in those three straight, was likewise none too impressive, although the errors put them in the hole to start with. Lewis Carpenter, the bespectacled battery mate of Appleby, started and was relieved by Lefty Thomas, who pitched the great game against Oglethorpe last week in the third. Carpenter's cup of woe had filled to capacity when two errors by Martin and Gross helped a run across in the first and another aided and abetted three more Clemson runs in the second.

NOT BAD.

NOT BAD.

Thomas, who is almost a carbon copy of "Shorty" Roberts in size, pitched until the sixth, giving only two runs and five hits and doing rather well. Edenfield relieved there and finished up.

The Clemsonian causing the most grief to the Tech boys was Durham, the second baseman, who smashed out four hits in five times up, including a triple, home run and two singles. Henson, the football player who starred against Tech at Grant field, got three hits, while Lee caught a fine game and made two hits.

Tech started well, getting a run in the first on successive singles by Roberts and Hyder, Martin's forceout, a wild heave to second by Lee

Roberts and Hyder, Martin's force-out, a wild heave to second by Lee trying to catch Martin, and Hyder's clean steal of home with McNenney shielding him in a squeeze-play at-

The second and last Tech run was generated on Roberts' walk and Martin's lusty double in the third. After that the Jackets were helpless before Swails and victimized by more er-

# Shatters Shot Put Record

"Baby Jack" Torrance, former L. S. U. football, basketball and track star, established a new world's record for the 12-pound shot Friday afternoon in his first heave in the opening day events of the forty-first Pennsylvania relay carnival. Torrance's record throw measured 62 feet 1-4 inch, almost two feet further than the former record. Torrance aleady holds the record for the 16-pound shot at 57 feet 1 inch. Glenn (Slats) Hardin and Buddy Blair were other L. S. U. trackmen to capture first places Friday.

PHILADELPHIA, April 26.—(AP)—Having already startled other parts of the country with their track and field exploits, the sturdy young ons of Louisiana State University, led by "Baby Jack" Torrance, today signaled their first big eastern invasion by monopolizing individual honors in a record-breaking outburst marking the first day's competition at the

Torrance already holds world records for the standard 16-pound shot, which he heaved a distance of 57 feet 1 inch last year, with one hand, and an aggregate of 94 feet 1 1-8 inches with two hands.

Glenn (Shats) Hardin and Nathan (Buddy) Blair gave Louisiana State two other triumphs but they had their troubles before achieving them. Hardin, who holds the world record of 50.6 seconds for the 400-meter hurdles, needed a big lead in this event to offset a bad spill in the stretch. Leading his nearest rival, Robert Jackson, of Lehigh, by 20 yards, Hardin stumbled over two hurdles in a row, fell to the track and barely picked himself up in time to clear the final barrier and beat Jackson to the tape by three yards. The spill cost "Slats" his change to wipe out the carnival record of 53.3 seconds. He was clocked in 54.7.

Early Lead, Fast Fielding Win for Barons, 6 to 5.

BIRMINGHAM, Ala., April 26 .-The Crackers and Barons engaged in a little juggling act Faday afternoon and they played like they were juggling a hot brick-first I'll take it and then let you have it. When the brick got cold, the Barons finally decided they wanted it. Consequently, Manager Milan's crew came through with a 6-5 victory over the Atlantans. in their second game of a four-game

series at Rickwood. After a bitter 11-inning struggle Thursday, the two teams went through the nine innings Friday with first one team and then the other trying to give the game to the other one.

EIGHT PASSES Despite the fact the Crackers got only 10 hits off the combined delivery of George Murray, LeGrant Scott and Pat Dunaway, they got 20 men on base, thanks to eight passes on balls and two hit batters. Seven stolen bases also were registered by the visi-

Lynn Nelson kept his nine hits fair-Lynn Nelson kept his nine hits fairly well scattered, but not enough so to keep the Barons from scoring one more run than his mates and the Cracker jinx at Rickwood was broken. The Crackers won their first five games at Rickwood last year and finished with 13 out of 20 games for the year's competition with Birmingham, at home and abroad.

The victory, close as it was, had a double value to the Barons for it not only discelled the Cracker jinx, but it

only dispelled the Cracker jinx, but it gave them undisputed possession of second place.

Murray did pretty well until the fifth, when he gave up a trio of runs, despite the fact he gave up six hits and walked one in the first four innings. He at least kept them from scoring until the fifth.

MOORE WALKS.

In the fifth, Murray started it by walking Moore. Taylor singled and Moore took third after Clancy's catch of Harris' foul. Oana singled to center, scoring Moore and Taylor, and after Norman McCaskill, who started behind the plate, had singled, he and Oana worked the double steal, Oana scoring.

In the seventh, after the Barons

In the seventh, after the Barons had stepped into the lead again with two runs in the sixth, Scott, who had replaced Murray in the fifth, walked McCaskill and Chatham. Dunaway relieved Scott and Nelson's fly to deep right let McCaskill go to third. Again the double steal worked, McCaskill scoring. Dunaway succeeded in retiring the side and the Cracker scoring was over for the day.

The Crackers went ahead in their half of the sixth when Scott, who had replaced Murray in the fifth, walked Lipscomb and later Harris and Oana scored Lipscomb with a single to center.

Trapp's base on balls and Regan's double gave the Barons a run in the second. Etten's single, Chatham's fumble on Etten's bounder, Willett's fumble on Etten's bounder, Willett's bunt that went for a hit, Nelson's er-ror, letting Trapp score, and Oana's error on Regan's fly, letting Willett score, gave the Barons three in fourth. Singles by Willett, Epps a Horn gave the Barons two in

with Durham, who also is a pitcher, it seems, working the second. Waits and Carpenter, who pitched the working yesterday, will be Dodd's batterymen.

The win yesterday was Clemson's second over the Jacketa this season. They have a chance to break even to-day.

FREE-FOR-ALL.

Manager Chuck Dressen, of the Reds, and Pitcher Tex Carleton, of the Cubs, swung at each other in their game, won by Chicago, 3 to 2, and the battle spread quickly into a free-for-all involving other players, none of whom did any damage, before umpires and non-combatants broke it up.

fore umpires and non-combatants broke it up.

The fight started in the sixth, with the Reds leading by 2 to 1. The Cubs went on to tie the game in the seventh and won in the eighth. Carleton allowing eight hits and Johnson, losing pitcher, and Pool five.

The New York Giants and Phillies played to their second extra inning tie of the season, going 13 innings into the darkness at 5-to-5.

TRIPLE PLAY.

The Phils engineered a triple play in the second inning when Mancuso hit to Shortstop Ryan, who tagged Jackson, forced Koenig and then threw Mancuso out at first.

The Cleveland Indians tightened their hold on first place in the American league by beating Detroit, 11 to 3, as the Senators drove Lefty Grove from the mound and beat the Red Sox, 10 to 5.

No sane socioligists or psychologists are advocating any such revolting inselence on the part of children. Nor are they making it hard for sensible parents to rear their children right. They are saying to parents. Take your throttling hands off the throats of your children. Don't treat them as if they were goods and chattels, without wills, without minds, without distinct prides and prejudices. Guide them, direct them, rather than force them."

NEGRO FOUND GUILTY
IN FAKE DAMAGE SUIT
Frank Anderson, negro, was fined \$1,000 with an alternative of 12 months on the chain gang yesterday in Fulton superior court after a jury had found him guilty of cheating and swindling in connection with an alleged fake damage suit against Georgia Power Company.

Anderson was shown to have filed a \$10,000 suit against the company for injuries he claimed were received when a motorman shut a car door on him.

These teachers are saying something else equally important that when parents in the softness of their hearts and their heads, slave and sacrifice to give their children opportunities and pleasures beyond their means, making life a down bed, the characters of those children become spoiled and self-ish, having no appreciation of what is being done for them and no conception of their duty to parents or to show the child is thankless it is more than likely because the mother has been likely because the mother has been the child doesn't appreciate her.

out;
"How sharper than a serpent's tooth
it is to have a thankless child!"

The instincts to guard and to give, to protect and provide, go hand in hand with love, yet if these instincts are not tempered with thoughtfulness they are ruinous. Loving parents are sorely tempted to save their children from the hardships and privations they endured, tempted to give them pleasures and advantages at any cost to them selves of hard work and sacrifice; and in the lavishness of their love they are likely to spoil those children beyond redemption. When a young miss goes off to college and shows no consideration of her mother's feelings, no appreciation of what is being done for her, the chances are that the damage was done to her character long before she reached college halls.

One of the inscrutable mysteries of One of the inscrutable mysteries of life is that we can follow the dictates of loving hearts and head straight for disaster. We can love our children so much that we give our very life blood for them and in the end suffer at the hands of those children as though we had been utterly heartless and neglectful. No matter that all mistakes were mistakes of that all mistakes were mistakes of judgment, the net result is heart-

Every important religion of the ages has included some teaching about the duty of children to their parents. But even here the responsibility falls back upon the fathers and mothers. It is they who mould the child's thought, form the child's character and determine in large measure his attitude toward parents and toward life in general. The modern young person doesn't know the meaning of the word reverence. His revolt against parental authority is part and parcel of the religion, against anything that curbs pleasure and involves restraint. It is part and parcel of the laxity of the age and of the disappearance of home life as it was known in the last generation. Any teaching that parents impart to their young must be put in pill doese (easily swallowed and easily assimilated), thrown in on the fly. Pretty hard to teach serious lessons in this fashlon! Yet if the young people know nothing of reverence, if they hoot at the idea of obeying parents simply because they happen to be party to their birth, fine yet know the meaning of friendship and if the parents have made friends with their children no teaching of modern science however polsonous will separate the children from them, nor betray the children into fisse.

This method was saving of temper and backache and also conducive to longer lived shrubbery.

Once the scheme suited her, then she set to work to make it become a reality. The trees which furnished all the shade had their densely shaded area planted with myrtle or Japanese spurge. This grew well and gave a cool, green look to the garden even on the hottest day.

Lois found that white nicotians was a joy both during the day and the evening. The new varieties will stay open during the day. Hitherto the blossoms closed in the day time and opened only at night when they scented the air with a heavenly fragrance. Mignonette, sweet alyssum, rock cress or arabis, white phlox and white petunias gave her the white and green garden spaces that she wanted. The phlox and petunias needed sunny spots but even in her popular backyard Lois managed to find a few of those. She wanted to try white roses and white lilacs, the big double kind. But the roses needed sun, that she knew. Perhaps some time she would have that, too. The Miller backyard was the playspot for all the children in the neighborhood. Since Ann was small and
John David was beginning to enjoyout-of-doors, there seemed no reason
for barring the children from the
yard. Much as Lois wanted flowers
she realized that children came first.
Later on she could have the kind of
garden of which she dreamed.

There was another complication in
her garden desires and achievements.
The best part of the yard was shady
and flowers need coaxing if they are
to grow well in shady spots.

Lois attended many garden club
meetings. She knew the value of forehanded planning. She always worked
out her garden plans on paper first.
She drew her garden to scale and then
moved the shrubs and plants around

# Second Pilgrimage to Tallulah School Is Planned for May 3 To Honor Members

The second pilgrimage of the spring season to Tallulah Falls school to be made by the Young Matrons' Circle is scheduled for Friday, May 3. Up the liris trail might have been the slogan of the first spring pilgrimage of the Young Matrons' Circle to Tallulah school made on April 24, for the five lavels winding up the side of Cherokae mountain were a sheet of purple bloom. Not purple alone, but all shades and varieties of iris are blooming around the 14 grey stone buildings which sauggle into the steep hillsides. Friends of the school have sent seed, bulbs or plants to make these hillsides blossom into continued and every varying beauty. Sunshine, flowers and freah greenness added to the enjoyment of the picnic luncheon served by the girls in the school dining room. The young matrons, who do much soward maintaining the school, receiv—

NEW YORK, April 26.—(P)—A slight setback in industrial issues marred the corporate bond market's calm today, but rails and utilities reasserted their right to leadership and more than offset the defection. United States governments ended a shade lower.

more than offset the defection. United States governments ended a shade lower.

The rapid clip at which low-priced industrial bonds have moved upward within the past several days, when some traders sensed inflationary implications in the step-by-step advance in silver prices, was believed in investment quarters to have attracted profitaking notwithstanding the fact that bar silver was boosted another 4 cents an ounce today to 81 cents. Another version was that the somewhat sensational advance in the price of world allver over the past month had been favoring foreign speculators more than it did domestic producers and owners and there was some doubt that the United States government would immediately follow the latest advance by posting still higher prices for newly mined domestic metal.

Rail and utility bonds, forced to play second fiddle within the past few days when the industrials monopolized attention, came back with vigor today and many leaders scored a gain of a point or so without difficulty. Among these were Delaware & Hudson 4s at 83 3-4. New Haven collateral 6s at 54. Southern Railway consolidated 5s at 89 7-8. Columbia Gas 5s at 89 1-2. Tennessee Electric Power 6s at 99 and Montana 'Power 5s at 83 1-2. Colorado & Southern 4 1-2s gained 4 points on approval by the I. C. C. of a loan by the RFC that would care for the road's May 1 bond maturities.

The Associated Press averages for 10 rails advanced .2 of a point and that for 10 utilities gained .3 of a point to 92.6, a new 1935 high.

A 3 1-2 point drop in International Paper 5s to 67 1-2 was the central feature of the industrial group. Others selling lower included obligations of Penn Dixic Cement, American Smelting & Refining, Consolidated Coal, Container Corporation, International Mercantile Marine and Republic Iron & Steel, Bonds of the Paramount-Famous-Players and Paramount-Famous-Players and Paramount-Famous players and Paramount-Famous players and Paramount-Famous players and Paramount-Famous during prices 4-32nds higher to 5-32nds lower.

STOCK OPINIONS.

DORBS & CO.—Nothing would have been more natural than considerable profit-taking after a week of steady advances and the market would probably have been considerably lower than it was but for the buying in the rail group in the anticipation of the supreme court decision on the pension case. This influence is likely to continue Saturday and temper any weakness of profit-taking nature.

FENNER & BEANE—Immediately ahead lies the president's talk Sunday and the possibility of a favorable supreme court decision on the rail pension Monday as well as a possibility of a further increase in the silver price. One or more of these developments might conceivably produce the cilimactic bulge preceding well-defined but probably not drastic reactions. This in our opinion provides a logical basis of a trading policy.

COUETS & CO.—If the decision on the railroad pension bill is favorable toward the railroad pension bill is favorable toward the railroads the market will more than likely have another swing up.

HUBBARD BROTHERS & CO. TO DOBBS & CO.—The extent of the recent advance in rection and the continued uncertainty over the new crop program seems to be causing the trade to take a cautious attitude. July Liverpool due 6.54.

TENNER & BEANE.—We look for the market in work higher. market to work higher.

COURTS & CO.—The market may still have another advance on allver news but it must be remembered that a good many important questions await clarification.

GRAIN OPINIONS.

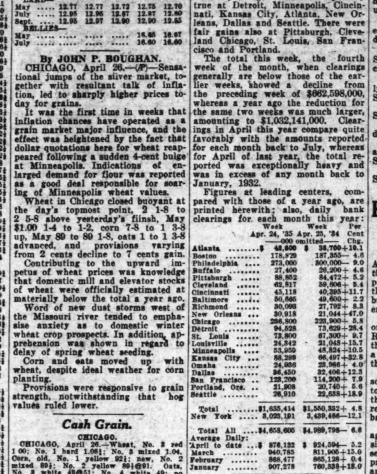

FENNER & BEANE—With the strong old crop position and inflationary developments we would continue to work on the buying side of wheat.

OUBTS & CO.—A continued active trading market appears in prospect.

Bank Clearings

NEW YORK, April 26.—Bank clearings were again reduced, the loss being due mainly to the decline at New York and to the amailer amounts reported at other large centers. The total for the 22 leading cities in the United States for the week ended Wednesday, April 24, as reported by Dun & Bradstreet, Inc. was \$4,658,-605,000, against \$4,989,798,000 for the same week of last year, a reduction of 8.6 per cent. This contrasted with a decline of 11.6 per cent in the previous week. At New York city, clearings were \$3,022,191,000, that amount being smaller by 12.1 per cent than that reported last year, while the aggregate for centers outside of New York of \$1,635,414,000 was only 4.8 per cent higher.

At a number of important cities outside of New York, clearings continued substantially larger than they were a year ago. This was especially true at Detroit, Minneapolis, Cincinnati, Kansas City, Atlanta, New Orleans, Dallas and Seattle. There were fair gains also at Pittsburgh, Cleveland Chiesgo, St. Louis, San Francisch

### Market Outlook MAX BUCKINGHAM

(Copyright, 1985, by the United Press.) NEW YORK, April 26.—(UP)— Rumors of new monetary moves made Wall Street traders extremely nervous

wall Street tracers extremely nervous tonight.

The nervousness traced to silver. Bar silver rose in New York city to \$1 cents an ounce, four cents above the price miners will get for their metal from the treasury and a new high since 1920. During the day not an intimation was made of what move the sovernment might make.

an intimation was made of what move the government might make.

But Wall Street did a lot of guessing. Some believed the price might be jumped to \$1.29 an ounce. Others believed both gold and silver prices might be increased. These beliefs were given impetus by Senator Patrick A. McCarran who said the government should start paying \$1.29 for newly mined silver now. In addition gold currencies shot forward in relation to the dollar in late foreign exexchange trading. exchange trading.

UNEASINESS INCREASED.

UNEASINESS INCREASED.

The guessing increased the uneasiness of traders who have felt the market has been running away from itself in the past two days. Consequently there was a lot of realizing sales which brought the close to an irregularly lower position. Only rails pulled ahead as a group as the customary week-end covering came in.

Market volume continued good, 1,520,000 shares being exchanged. This was the first week this year that each of the five-hour sessions had more than one million shares exchange.

The nervousness over monetary problems was the major factor in the market and likely will bring erratic movements in the two-hour session tomorrow. This appears especially true inasmuch as there were no clearcut business reports to affect sentiment. The few included;

Estimate by Dow-Jones & Company that United States Steel Corporation will make a first quarter showing only exceeded once since mid-1931 with between \$11,000,000 and \$13,000,000 earnings for the period.

Dun and Bradstreet, Inc., trade review found sentiment lagging behind business. Retail distribution is improving. Car loadings showed an increase of 23,220 above the preceding week and 19,200 above the corresponding 1934 week. However, private surveys show that the first 20 railroads to report March earnings had an aggregate of \$12,962,000 operating income compared with \$17,-274,000 in March, a decline of 25 per cent. per cent.

Banking Bill Foes

Prepare for Battle WASHINGTON, April 26.—(P)-WASHINGTON, April 26.—(P)—Although conceding privately that they were likely to fail, house republicans prepared today to do battle against the sections of the omnibus banking bill which would broaden federal control.

The preparations for the republican onslaught upon the bill were made by Representative Snell, of New York, the minority leader. Snell called for a party conference Tuesday night on the bill.

"A good many republicans, and some of the democrats, are opposed to title two," Snell said, referring to the, title which increases the federal reserve board's authority over reserve banks.

The republicans were expected to agree to vote against the controversial fittle suppossible to transpositions and october made the best advances, May finishing at 11.50,

The republicans were expected to agree to vote against the controversial title, supporting, however, the sections which make permanent the present temporary deposit insurance and which make technical amendments in the federal reserve act.

Despite private agreement by the republicans that they probably faced defeat, their move signalized the beginning of an extended congressional fight. Senator Glass, democrat, Virginia. already has served notice that he opposes the expansion of federal authority, and a good many senators heed his arguments on banking legislation.

Trading was active throughout the session and a good volume of business was transacted.

CAUSE OF ADVANCE.

Higher price for silver, with its farreaching effects in India and other countries which produce large quantities of cotton, was credited with the extension of Thursday's advance.

One of the reasons for the firmness or orously denied, however, when the executives of the government's cotton was to be sold to New England mills from this stock. But the market failed to react on this news and buying orders in considerable volume continued to be thrown into the market.

The goods markets reported a fair amount of business, both in Worth Street and abroad, with prices holding comparatively steady. However, spinners takings continued to decline, For the past week world spinners acquired 148,000 bales, compared with 269,000 bales in the similar week of 1934.

But the market ignored all bearish news and went merrily on its way toward higher levels.

Absence of additional May notices brought in covering and current crop deliveries sold up to within 10 or 15 points of the 12-cent level.

Increased demand from outside sources appeared on the late advance and this buying as well as the earlier foreign demand was credited more or less to firmness of silver.

Neutrons are tiny fragments of atomic energy through Dr. Dunning's new technique is the scarcity of neutrons. The best source of them at present is the rare radon gas given off by radium, but scientists hope to find other more prolific methods of producing them.

# New High Speed Seaboard Locomotive

Seaboard Air Line Railway has just purchased five of the latest type high-speed freight locomotives and 1,000 all-steel, most modern boxcars. The new locomotives represent the apex of mechanical genius. An idea of their enormous length was seen when it required 77 full grown men, standing shoulder to shoulder, to cover the overall-length. In height they are more than fifteen feet. The new locomotives were built by the Baldwin Locomotive Works, Eddystone, Pa., primarily for high speed freight service. They are capable of handling 50 per cent more tonnage than those used at present. Their tenders carry 24 tons of coal and 16,000 gallons of water, enabling them to travel unusally long distances without operating stops.

THE RACES OF MANKIND

Are you interested in the races of the world and what portions of the earth they inhabit? Our Washington Bureau has a bulletin discussing priefly the ethnology of mankind. It tells something about prehistoric man, from which present-day racial stocks are descended, and gives for each of the continents, and the principal countries of the world condensed information on the races inhabiting them.

Fill out the coupon below and send for this bulletin:

Dept. 334, Washington Bureau, Atlanta Constitution,

1013 Thirteenth St., Washington, D. C.

I want the bulletin, RACES OF MANKIND, and enclose herewith five cents in coin (carefully wrapped), or postage stamps, to cover return postage and handling costs:

NEW ORLEANS, April 26.—(P)
When city police and state officers raided a horse race betting establishment here today, a look-out gave a warning signal and a tear gas bomb was exploded, enabling the operators of the "bookie" to escape identification under cover of the flowes.

Police said when they saided the shop the lookout shouted "Elephants," as a wsrning, and that they heard a loud crash coming from the direction of the cashier's cage.

Approximately 30 men standing in the gas had escaped from the room, police entered and arrested 30 men, booking them with loitering.

Police found the cashier's cage had been locked Breaking in the door, they were unable to find any cash or records of bets.

KANSAS CITY, Mo., April 26.—
(UP)—Rise of a new major dust storm tonight led Red Cross officials of four states to issue a warning that residents of the affected areas must wear masks to check an epidemic of dust pneumonia.

In southwestern Kansas, the Oklahoma and Texas panhandles and in eastern Colorado, farmers and townsmen have been ignoring recent dust flurries as an every day occurrence. Tonight Red Cross physicians revealed that hundreds of cases of a new complaint named dust pneumonia have developed.

Emergency hosypitals have been set up at Springfield, Col., where nine are dead. An epidemic of measles is running concurrently with the lung irritations. More than 100 cases of the two diseases are being treated.

Morgenthau Says Progressive Levy Is Desirable Revenue Source.

WASHINGTON, Apr. 26.—(P)—A federal inheritance tax, with rates similar to the income tax levies, was suggested to congress today by Secretary Morgenthau as "the best source of additional revenue at this juncture," either to pay the soldiers bonus or meet other expenses.

Chairman Harrison of the senate finance committee made public Morgenthau's plan as the cash bonus issue neared its big test in the senate. He was awaiting a break in the antilyuching filibuster to call up his compromise plan for cashing the veterans' certificates.

Without waiting for the bonus to come up, Senator Gore, democrat, Oklahoma, today offered an amendment to permit President Roosevelt to refund the war debts owed by foreign nations and use the proceeds to pay off the bonus in full.

Republican sentiment appeared today to be veering toward the Vinson cash payment plan, which was defeated in the house and turned down by the senate committee.

Morgenthau suggested a system of "taxes on receipt of inheritances and gifts" to supplement the present estate and gift taxes. He said it would be the best source of revenue at this time "from the standpoint of imme.

He said it would be the best source of revenue at this time "from the standpoint of immediate feasibility no less than that of our fundamental objectives." The treasury head made it clear that beyond the bonus payment possibility he regarded the plan as the most desirable source of revenue if new taxes should be needed for any purpose.

Tax experts said that under Morgenthau's plan the inheritance tax apparently would be in addition to existing taxes.

This led to a belief by some observers that its effect would follow the lines of the Roosevelt administration's redistribution of wealth enunciation.

"The result of this proposal," he said, "would be that gifts and fisheritances would be faxed at progressive rates, and, under it, the congress could provide for the effective rates to vary with the tax-paying capacity of the recipients of bequests and gifts.

"On very large bequests or gifts during a single year—\$1,000,000 or more—if the existing income tax rates are applied, the total tax would approximate 60 per cent."

Morgenthau suggested that to avoid hasty liquidation of large properties, it might be advisable to make the inheritance taxes payable in installments.

# FOR RELIEF POST

RFC Official Recommended for Post of NEC Director in Georgia.

Senators Russell and George, Georgia, recommended to Frank C. Walker, executive secretary of the Na-tional Emergency Council, the ap-pointment of Cocke as director of the council's division in the Cracker

tate.

This recommendation was discussed at the White House conference tonight. An early decision was expected. Under the president's new set-up the state council head will receive all applications for work projects originating in Georgia, put them in proper form and forward them to Walker who in turn will submit them for action of the projects board.

While developments moved swiftly toward the objective of putting 3,500,000 persons to work throughout the country, details of state and local administration still were unannounced.

ninistration still were unannounced.

There was no indication whether the plan for state boards, in connection with which Philip Weltner and Will Vereen were mentioned in Georgia, had been abandoned.

The Georgia congressional delegation kept a sharp eye on developments, meanwhile. Representative Vinson, dean of the house group, said he would call a delegation caucus next week to see that "the state is not discriminated against, because of what has happened down there."

Vinson reiterated his confidence Georgia will not be penalized in federal recovery efforts because of the repeated attacks directed at President Roosevelt and the "New Deal" by Governor Talmadge.

Cocke was understood to have drawn the attention of Washington officials by his record as director of the regional RFC office. Senator Russell, in forwarding his recommendation, said he had done "splendid" work. At one time the Atlantan was reported under consideration for appointment to the RFC directorate in Washington.
